Lawton Post #718

Wednesday, September 16th at 7pm
Lawton Friendship Center— 300 Cedar St.

Safety First!

→ Keep dogs leashed in all public areas and prevent your dog from running into the street.

→ Bikes and scooters can be great exercise for kids, but to prevent accidents, educate your kids on general traffic guidelines. Utilize the walking trail and sidewalks instead of the street! Always know where your kids are! It only takes two seconds for them to be down the block!

→ As school begins, an increase in teen driving, increases the likeliness of speeding and minor traffic offenses. Have a conversation with your teen about the important of following the traffic rules in town. The Woodbury County Sheriff's Department will be on the lookout!

→ Never give out your bank or personal information over the phone. Scammers are relentless and will do anything they can to get your information! Don't let it happen to you!

→ Call 811 before you dig. If you have any remaining projects this summer, make sure you call 811 before you dig! Also check to make sure if you need a building permit from the city. Permanent structures like decks, fences, and concrete work MUST HAVE a building permit.
